

Data Technician

Name: Almas Mansuri

Course Date: 12/05/2025

Table of contents

Day 1: Task 1	2
Day 1: Task 2	3
Day 2: Task 1	4
Day 2: Task 2	5
Day 3: Task 1	6
Day 3: Task 2	6
Day 4: Task 1	7
Day 4: Task 2	9
Course Notes	10
Additional Information.....	Error! Bookmark not defined.

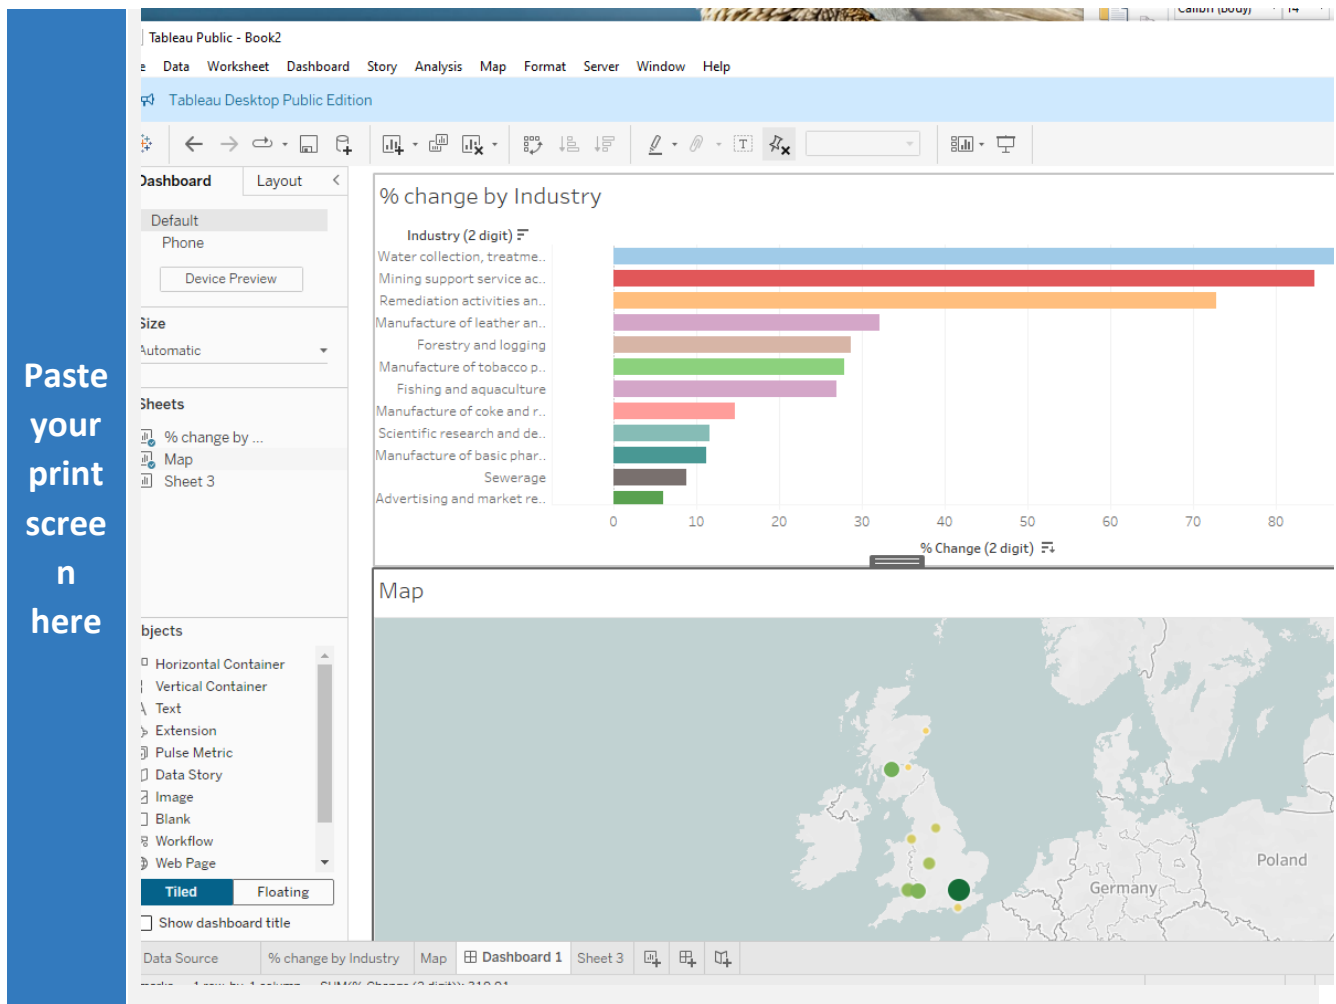

Day 1: Task 1

Please research the different versions of Tableau, compare and contrast them below and explain the limited functionality on 'Tableau Public'.

Different Tableau versions	Tableau Desktop, Tableau Server, Tableau Cloud, Tableau Public
	Tableau desktop is useful to create and analyse data visualization locally on computer
	Tableau Server is used for publishing and sharing tableau dashboards within an organization.
	Tableau Cloud is a cloud based platform for creating, publishing and sharing tableau dashboards.
	Tableau Public is a free version of tableau for creating and sharing visualisations publicly. Tableau public is mainly designed for sharing visualisations publicly. It has limitations in data connectivity, data size, features, security and sharing options.

Day 1: Task 2

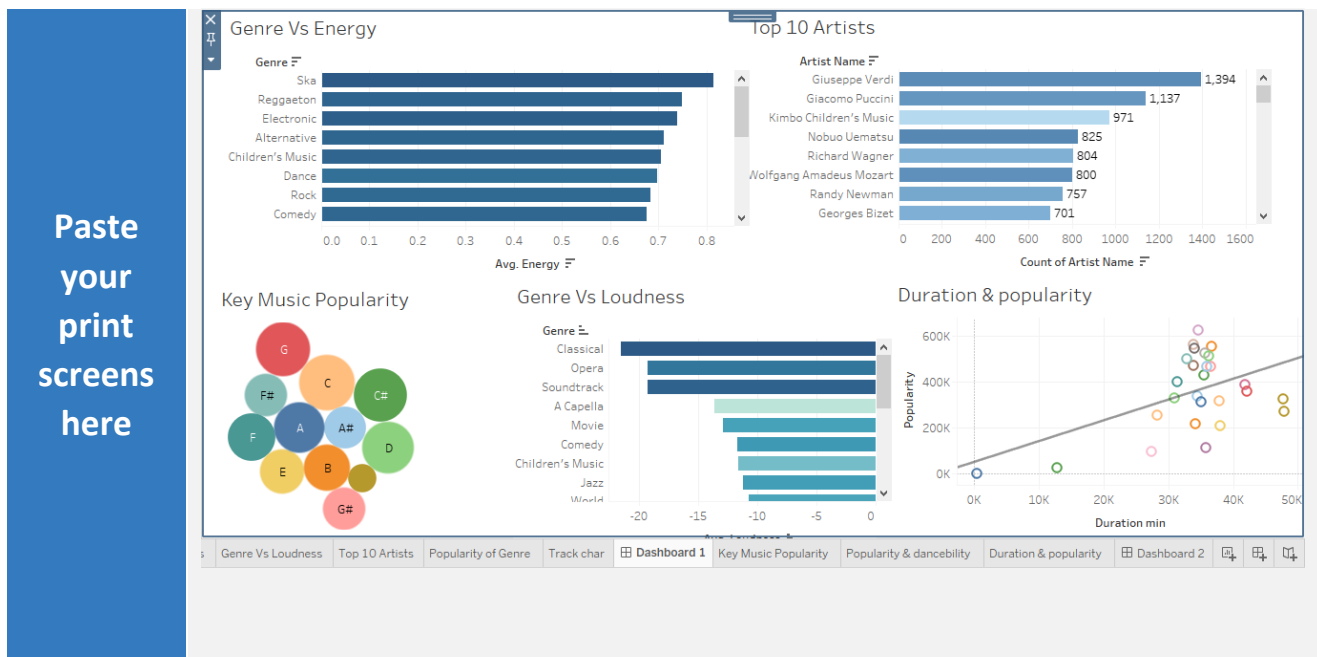

Using the *EMSI_JobChange_UK* dataset, create your own dashboard, I want to see a bar chart showing percentage change and a UK based map showing the key city locations impacted.

Day 2: Task 1

Using the Spotify data set, conduct an analysis to find trends and key information that could be used by an organisation for future projects.

There is no set scope for the analysis, simply to find trends and document them below:

What did you find?

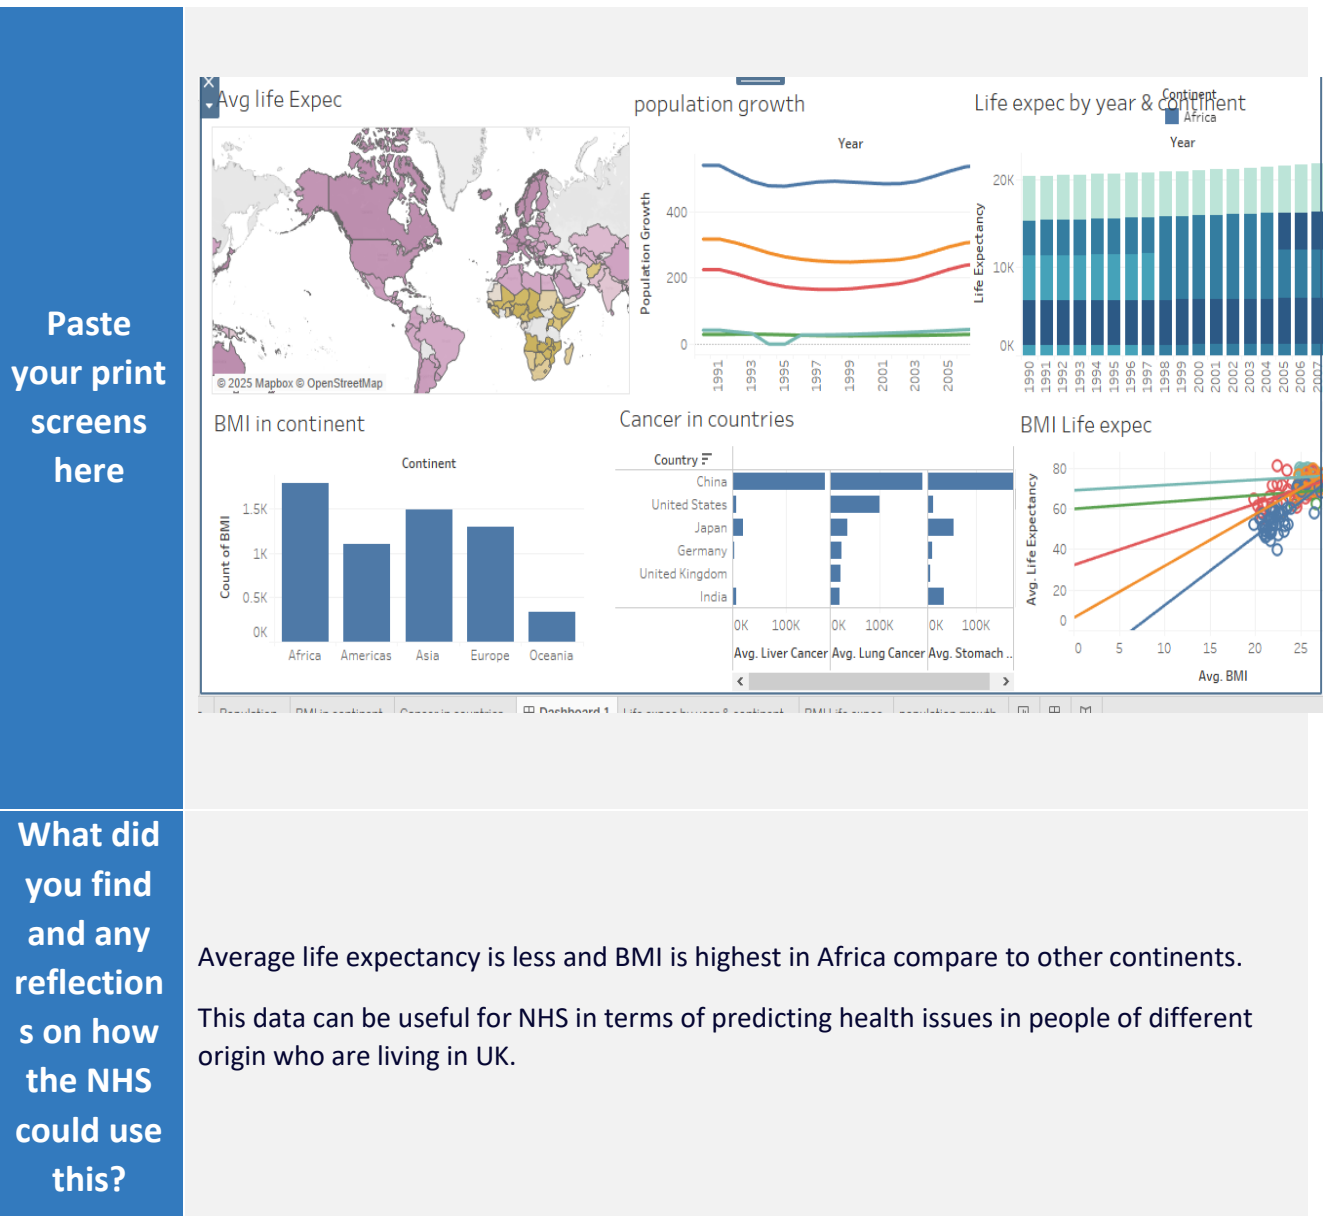

- Top 10 artists by their popularity
- G type of music is popular
- Classical genre has loudness
- Ska genre has more energy

Day 2: Task 2

Using the Health [data set](#), conduct an analysis to find trends and key information that could be used by an organisation for future support.

There is no set scope for the analysis, simply to find trends and document them below.

- Data can be lifesaving and is being used more within the NHS, reflect on how this data could support decision making for the NHS.

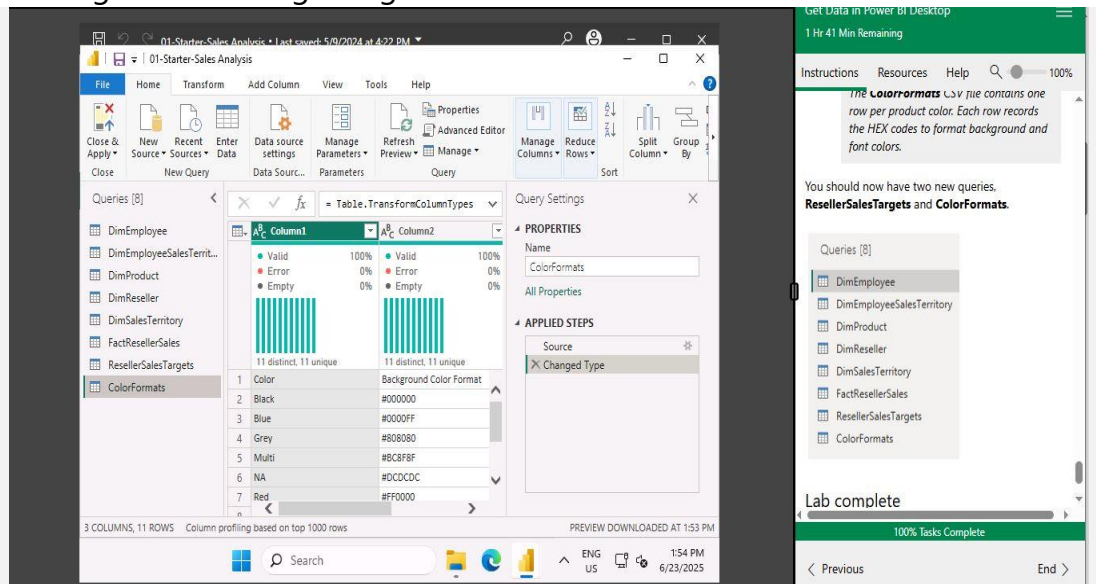

Day 3: Task 1

Please complete Lab 1 'Get Data in Power BI Desktop'. Once complete, paste a print screen below and in the collaboration board.

"Teaching is the best way to learn, so please listen out for support requests from the class and we'll work through the challenges together"

Paste your
completed
lab here

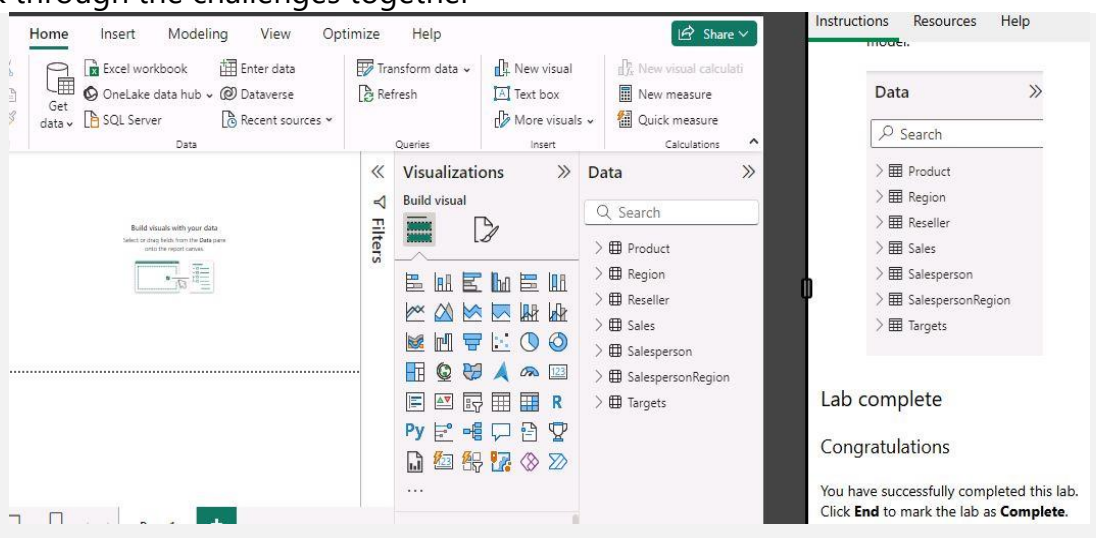

Day 3: Task 2

Please complete Lab 2 'Load Transformed Data in Power BI Desktop'. Once complete, paste a print screen below and in the collaboration board.

"Teaching is the best way to learn, so please listen out for support requests from the class and we'll work through the challenges together"

Paste your
completed
lab here

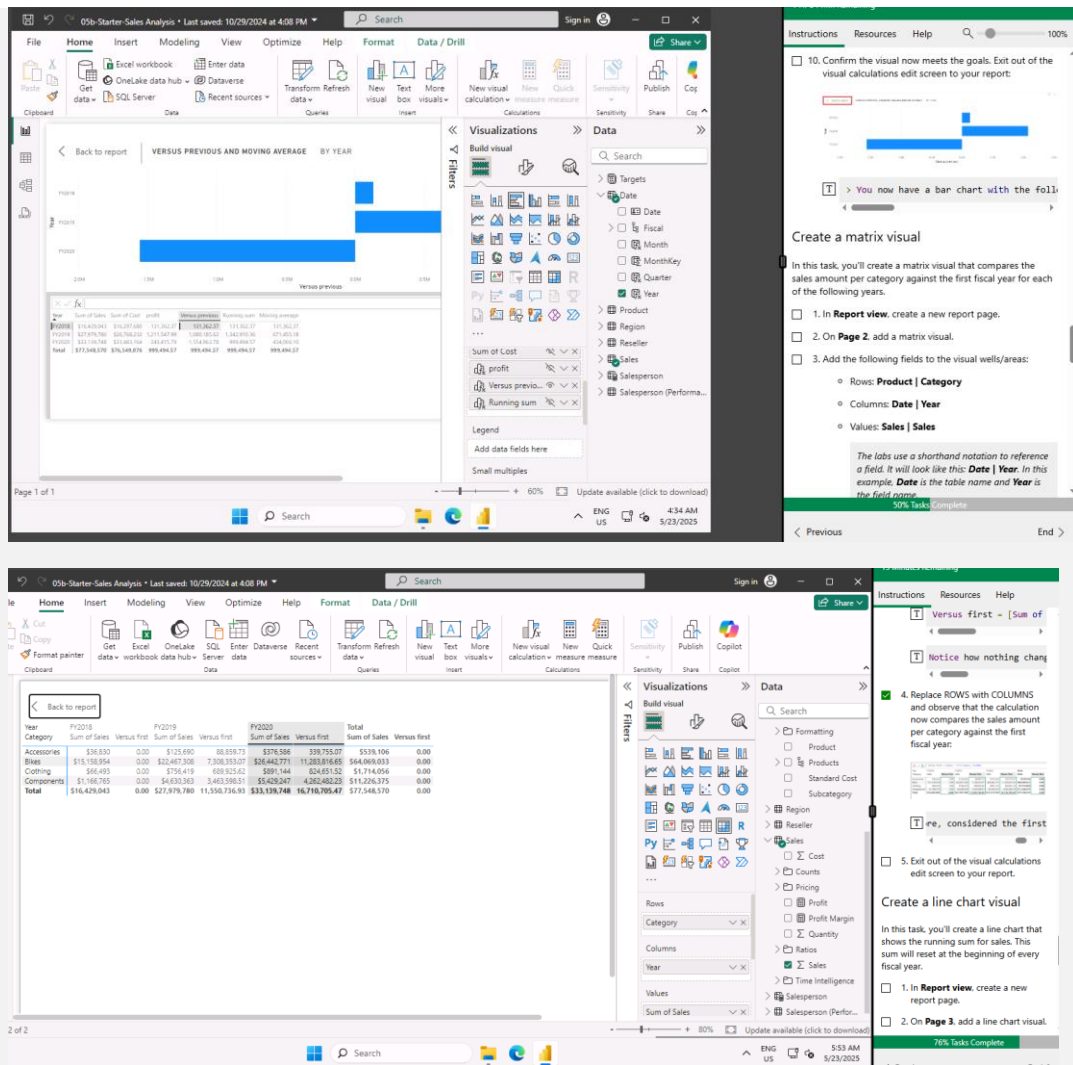

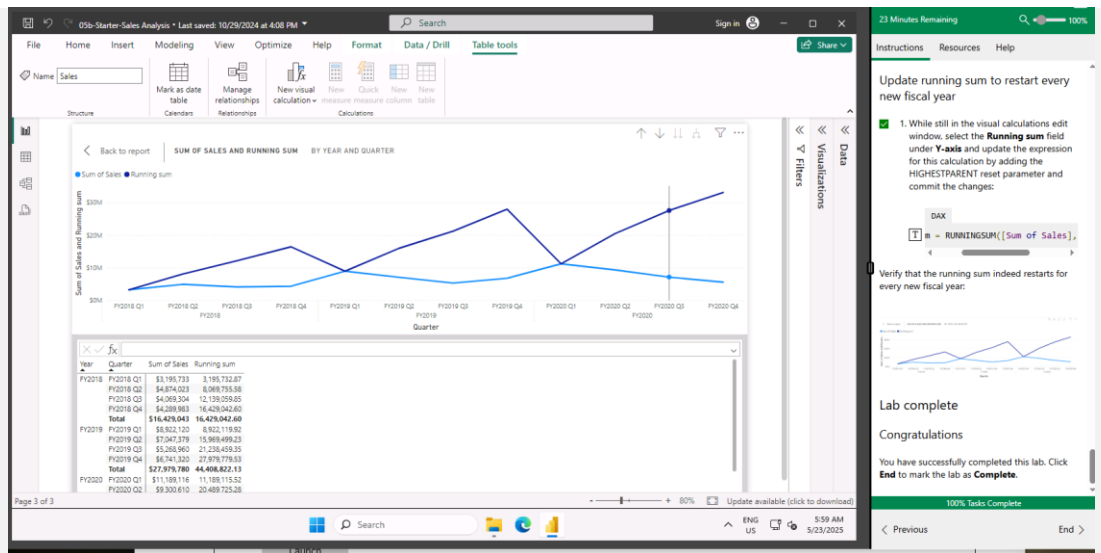

Day 4: Task 1

Please complete Lab 6 'Design a Report in Power BI Desktop'. Once complete, paste a print screen below and in the collaboration board.

"Teaching is the best way to learn, so please listen out for support requests from the class and we'll work through the challenges together"

Paste your
completed
lab here

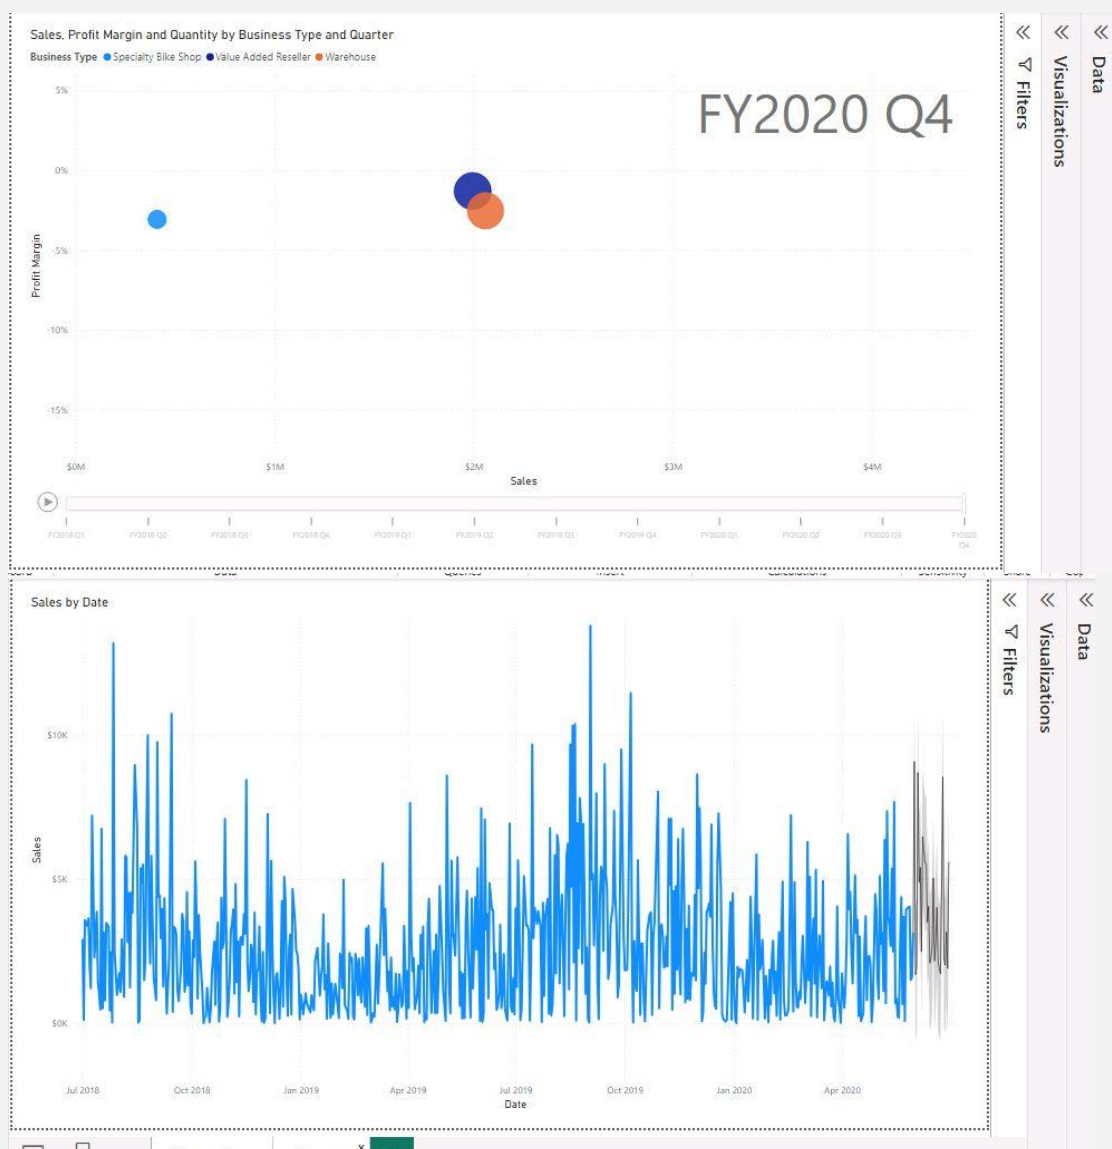

Day 4: Task 2

Please complete Lab 9 'Create a Power BI Dashboard'. Once complete, paste a print screen below and in the collaboration board.

"Teaching is the best way to learn, so please listen out for support requests from the class and we'll work through the challenges together"

Paste
